The fish are biting really good I think the slowest 4 hour fishing trip we have had since since Christmas is 48 fish! The fish are biting a number of lures and fly's The trout fishing on Taneycomo Lake in Branson Mo is good as ever and heating p for the summer months! I had a 6 hour trout fishing trip this morning with 3 anglers and they caught over 130 trout! Our average 4 hour trout fishing trip with 2 anglers (with no trout fishing experience) is over 50 fish! No you do not need to use a fly rod but if you want to learn to use one or want to catch a few fish on a fly rod I can guarantee you I can show you how. On most of our fishing trips we are using spinning rods and either casting to the trout or drifting with the current.

We do not bottom bounce with bait or anchor in one spot and fish night crawlers as most do. We have much more productive ways of fishing using fly's and lures that mimic the things and bugs that the Taneycomo Lake trout feed on. Scuds, jigs and midges in different sizes and colors depending on the weather and water levels. If you want to have a blast catching lots of trout on Taneycomo Lake just give me a call and we will make it happen!

However it is a bit to small for me to use in my fishing Guide service however if I just couldn't bring myself to sell it! Next best thing is Rent it!!
